

Michael Endo

ARTIST STATEMENT

Locked in a loop of familiarity and ambiguity, my gestural paintings, glasswork and sculptures exist in a moment of tension between the unnamable source and fiction. They suggest an original reference but are independent of it. By blurring the lines between the absolutes of reality and fiction, I strive to enter a liminal state where everything is imbued with an ecstatic transformative energy; a place where the silent hum of the subconscious is unmistakable.

ARTIST BACKGROUND
